Job Title: Senior PHP Developer (Laravel Focus)

Location: Lucena City, Quezon, PH
Employment Type: Full-time
Company: BLIS Digital Creations

Job Overview:

We are seeking a highly skilled and experienced Senior PHP Developer with a strong focus on Laravel development to join our dynamic team. As a Senior PHP Developer, you will play a key role in designing, building, and maintaining web applications using the **TALL stack** (Tailwind CSS, Alpine.js, Laravel, and Livewire). You will also take on **light project management** duties, overseeing the execution of project tasks, **mentoring junior developers**, and ensuring that projects are delivered on time and meet quality standards.

Key Responsibilities:

- **Technical Leadership**: Design, develop, and maintain web applications using PHP and the TALL stack.

- **Project Oversight**: Assist in managing project timelines, deliverables, and development cycles, ensuring the team meets deadlines and maintains quality.

- **Team Collaboration**: Collaborate with the development team to integrate various components of the application using **Alpine.js**, **Livewire**, and Laravel.

- **Performance Optimization**: Optimize application performance and scalability using Tailwind CSS and Laravel.

- **UI/UX Feasibility**: Ensure the technical feasibility of UI/UX designs and build reusable code and components for future use.

- **Full SDLC Participation**: Participate in the entire software development lifecycle, including requirements gathering, design, coding, testing, and deployment.

- **API Development**: Develop and implement RESTful APIs and third-party integrations.

- **Troubleshooting**: Troubleshoot and debug application issues, ensuring optimal performance and reliability.

- **Stay Updated**: Keep up-to-date with trends and best practices in the Laravel and TALL stack ecosystem to continually improve processes and tools.

- **Mentorship**: Mentor junior developers, providing guidance on best practices, code reviews, and personal development to enhance their skills.

- **Light Project Management**: Assist with project management tasks such as sprint planning, task delegation, and status updates, ensuring the team stays aligned with the project goals.

- **Database Management**: Work with database systems like MySQL, ensuring data integrity and efficient query performance.

Required Skills and Qualifications:

- **Bachelor's degree** in Computer Science, Software Engineering, or a related field, or equivalent practical experience.

- **5+ years of professional experience** in PHP development.

- **Strong proficiency in the Laravel** and its ecosystem (MVC, Middleware, Eloquent, queues, event handling, task scheduling, etc.).

- Experience working with the **TALL stack** (Tailwind CSS, Alpine.js, Laravel, and Livewire).

- **In-depth knowledge** of object-oriented programming principles.

- **Familiarity with Vue.js** is a plus.

- **Proficient in building and integrating APIs** (REST, JSON, OAuth).

- **Strong understanding of database design** and development (MySQL, PostgreSQL).

- Experience with **version control systems** (Git) and development tools like Docker.

- Familiarity with **cloud platforms** (AWS, DigitalOcean) and deploying Laravel applications in cloud environments.

- Experience with **automated testing frameworks** (PHPUnit, Dusk).

- **Excellent problem-solving skills**, attention to detail, and a proactive attitude.

- **Strong communication skills** and ability to collaborate effectively with remote and on-site teams.

- **Project management experience** in managing timelines, assigning tasks, and providing status updates.

Preferred Skills:

- Experience with **Agile/Scrum/Kanban methodologies**.

- Knowledge of **DevOps practices** and CI/CD pipelines.

- Experience with **microservices architecture**.

- Familiarity with **Vue.js** (optional but beneficial).

What We Offer:

- Competitive salary and benefits package.

- Opportunities for professional growth and development.

- Flexible work environment with remote work options.

- Collaborative team culture focused on innovation and continuous improvement.

Please submit applications to **resumes@blis.dev**
